and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I have been a Tracfone customer for awhile and I like their plans, but to increase the rates is not fair to me because I can't afford the increase. Where the rates are now is alright, but if they go up I think it would be unfair to everyone that do not make their calls from these specific areas in which we were told.

Please consider everyone and not just a selected few.

Thank you for your time.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Twanna Hanley
